Brenda,

On September 11, 2017, we submitted a response to the EPA's Resource Conservation Recovery Act, Section 3007 Information Request on behalf of Container Life Cycle Management LLC ("CLCM").

Within its Information Request, EPA requested a comprehensive list or other cumulative tracking record coordinating the number of containers, vendor names, incoming dates, and outgoing dates for containers returned for not being empty for the facilities. In our response dated September 11, 2017 and submitted on behalf of CLCM, we indicated that the facilities were continuing to compile this information and would provide it when the information was available.

Attached is the log used to track non-RCRA-empty drums at all of the facilities. As agreed with EPA, the vendors reflected within the enclosed documentation have been identified solely by a unique number, as such vendor information is highly confidential.

Please feel free to contact us with any questions.

Have a nice weekend,

Amanda
